Vocabulary Bingo

Lesson 2 — "The Marshmallow Challenge" | Teacher's Kit

How to Play (5 min setup)

- Give each student (or pair) one Bingo Card. No two cards are identical.
- The teacher reads the definitions on the Caller's List below, one at a time, in order — without saying the word.
- Students find the matching word on their card and cover/cross it out.
- First student to complete a full row, column, or diagonal (4 in a line) shouts "Bingo!" and reads their 4 words + definitions back to confirm.
- Keep calling until 2–3 winners are found, or play again for a full-card "blackout" win.
